Research with Grants in the last 5 years

1. Surveillance and Genomic Interactions of Nervous System Based Arboviruses in Unique African Rodents:

   Grant (Alexander von Humboldt Research Hub Africa Project, Principal Investigator 2021-2026)

2. Evaluation of Chronic Environmental Pollution on Brain Health and Aging:

   Grant (Cambridge Alborada Grant, Co-Principal Investigator 2020-2023).

3. The role of tiger nut milk in alleviating LPS and Vanadium neurotoxicity in mice (2025-2025)
   Grant (Loreal UNESCO Women in Science Grant to Dr Fanta Sabine. Role. Host)
4. The role of Moringa in alleviating Parkindon's like symptoms in rats (2025)
   Grant (MDS Visisting Trainee Grant to ElMouhab E. Role: Host)
5. The role of Moringa in alleviating Parkindon's like symptoms in rats (2026)
   Grant (MDS Visisting Trainee Grant to ElMouhab E. Role: Host)
6. Molecular Signature of Brain Folding and Brain Regeneration in Two Closely Related Species of African Giant Rodents:
   Grant (Technical University Dresden Lab2Lab Grant, Co-Principal Investigator, Ongoing)
